Intermediate

The intermediate level was defined as primary schooling plus vocational training or higher (secondary) school education but no higher education.

Degree

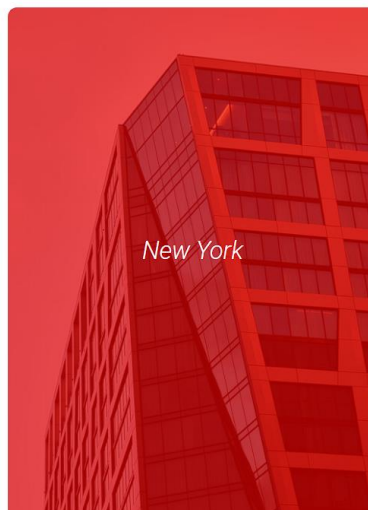

There are generally four categories of college degrees: associate degree, bachelor's degree, graduate degree, and doctorate or professional degree. Each category comes with its own particular subcategories, and there are some subtle differences between a doctorate and a professional degree

Post Graduation

A postgraduate course is typically one year's duration full time or it can take two years to complete part-time. A postgraduate diploma, postgraduate degree or Master's degree offers the student an advanced level of education in their chosen area of study.

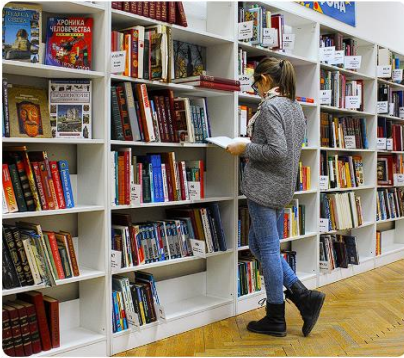

Our Global Campus

The University has incredible collections of books, manuscripts and other materials, many of them housed in beautiful, historic buildings. These resources draw scholars to the University from all over the world.

Our Facilities

One of the unique aspects of our programme is that our students get to share the same facilities that are used by full-time enrolled students at Oxford University. These include on-campus accommodation, lecture rooms, dining halls, sports fields, laboratories, libraries and other recreational facilities.

World Class Library

As gateways to knowledge and culture, libraries play a fundamental role in society. The resources and services they offer create opportunities for learning, support literacy and education, and help shape the new ideas and perspectives that are central to a creative and innovative society.

Largest Play Ground

Playgrounds are the best places to develop creativity amongst children where they can be themselves without having to fake their feelings and emotions. Most importantly, it develops vital cognitive and emotional skills that a child cannot acquire through leisure activities.

Tasty And Healthy Food

cafeteria, self-service restaurant in which customers select various dishes from an open-counter display. The food is usually placed on a tray, paid for at a cashier's station, and carried to a dining table by the customer.

What Our Student says

One of the best things about going to university is the social life. Oxford is no different. There are lots of people to meet, things to do and chances to discover new interests and talents. While Oxford students work hard, they still have plenty of time to have a laugh, relax and enjoy themselves

The ability to think deeply and come to original conclusions about issues is also what makes a great Oxford student. Reading and studying hard are good attributes, but critical thinking is what defines a successful candidate at Oxford University

KEERTHAN GOWDA K

The only things that Oxford students have in common are academic ability and intellectual curiosity. Our students come from all over the world and bring with them an amazing range of backgrounds and interests. This helps make our University one of the most exciting learning environments anywhere
